Summary

Highly motivated computer science student with a strong passion for Java programming, looking for an internship to further develop my software engineering expertise.

Skills

Languages: Java, Javascript, Node.js, HTML, CSS
Technologies: React, React Native, Express, MongoDB, Firebase, Tailwind CSS
Tools: Heroku, Github, Figma, Vite

Experience

Project: Watchy - E-Commerce Marketplace for Luxury Watches
Description: Developed a full-stack e-commerce platform enabling users to purchase luxury watches online, with seamless payment processing and product management.
Tech Stack: HTML, JavaScript, Java, React.js, Tailwind CSS, Stripe API, MongoDB, GitHub

- Implemented user-friendly product listings with dynamic filtering and sorting features.
- Integrated Stripe API for secure payment processing, ensuring a smooth checkout experience.
- Designed and maintained the database schema using MongoDB for efficient data storage and retrieval.
- Utilized GitHub for version control and project management.
- Demonstrated strong problem-solving skills in resolving technical challenges throughout development.
- Achieved a high-quality user interface using responsive design and Tailwind CSS.

Freelance: GoRendez - Web Developer
Description: Co-Developed a full-stack web application connecting outdoor enthusiasts for activities like hiking and fishing.
Tech Stack: HTML, JavaScript, Node.js, React.js, Bootstrap, Twillio, MongoDB, GitHub, Figma

- Utilized a diverse tech stack to create a robust and interactive platform.
- Implemented Twilio integration for real-time communication, enhancing the user experience and fostering connections among users.
- Demonstrated strong teamwork and communication skills while working closely with another software developer to meet project milestones.
- Designed and developed user-friendly front-end interfaces using Figma and Bootstrap, ensuring accessibility and usability.
- Successfully delivered a fully functional application that met the client's requirements, showcasing proficiency in both front-end and back-end development.

Education

Grand Canyon University
M.S Computer Science, Dec 2024
